Strategic long term value

- ✓ Self sufficiency during periods of surging demand and disruptions, as suppliers face capacity pressures
- ✓ Ability to serve a broader group of customers, with larger and more complex logistics needs
- ✓ Enhanced cost control and well-managed competitive prices with customers
- ✓ Opportunity to improve margins in less elastic markets.
- ✓ Potential for supplementary income from subcontracting/charter to third parties during less busy periods

Step-change in global scale and reach – expansion in the US and APAC markets

The way forward

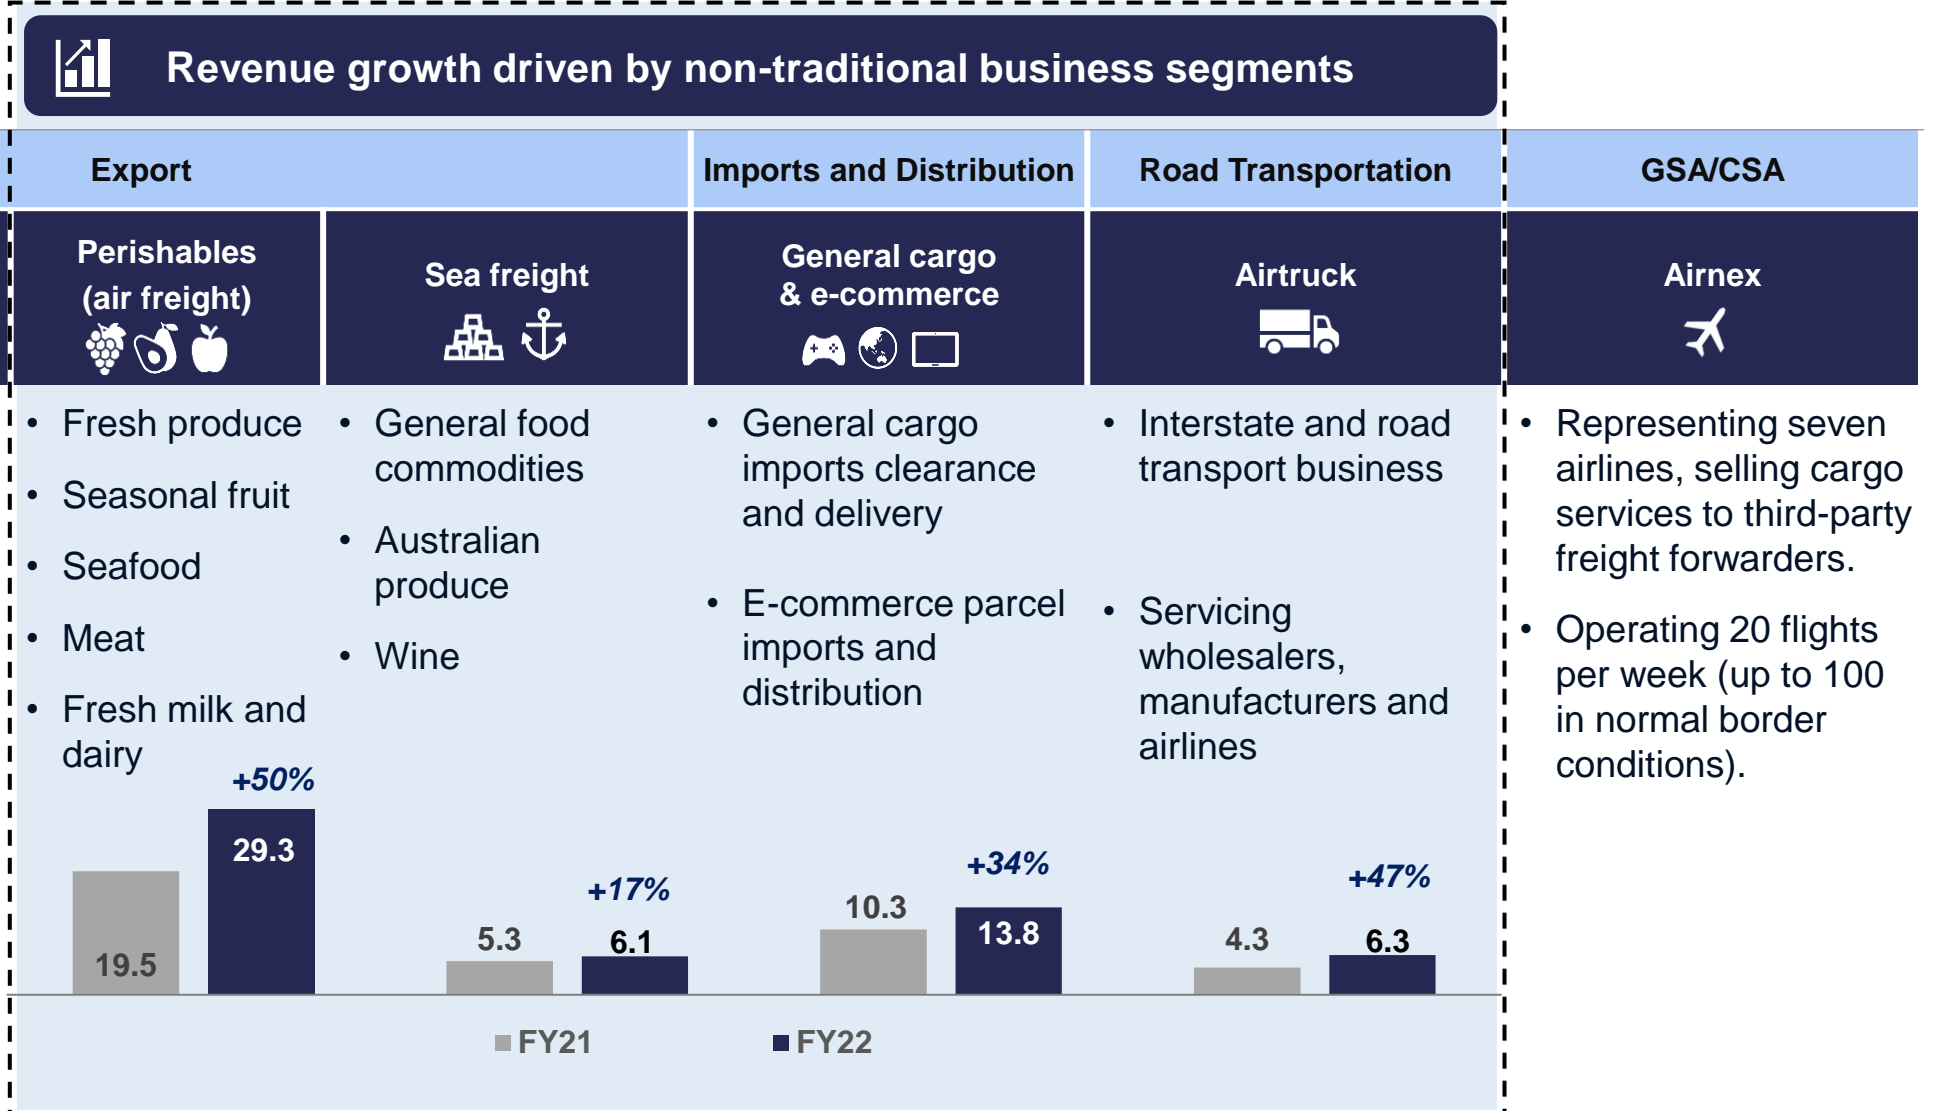

- ▶ Wiseway today is a global business with 160+ employees spread across five countries and 11 logistics hubs
- ▶ Agility and resilience supporting the business means Wiseway can weather recent disruptions and challenging economic environments
- ▶ Constant dedication to delivering innovative and reliable logistics solutions addressing growing and evolving customer needs.
- ▶ Enhanced diversification of our diversified business model outside of the traditional core business of dry outbound air freight
- ▶ Synergy opportunities and cost optimisation initiatives will drive sustainable long-term positive performance
- ▶ A very recent milestone is the acquisition of Philippines-based SEAIR, expanding Wiseway's presence in Southeast Asia and offering additional utilisation of its aircraft fleet through SEAIR's AOC
- ▶ An additional achievement is an eight-year leasing agreement for the exclusive use of a class-leading Boeing 737-800 Super Freighter, which will deliver greater efficiencies across our expanded network
- ▶ Prudent debt levels and a healthy balance sheet from which to support future growth initiatives

Uniquely positioned to benefit from emerging industry trends

Expanding international trade industry with new free trade agreements and logistics companies becoming increasingly globalised

Scale investment in global logistics infrastructure to meet growing demand and facilitate the industry's operations

Growing impact of strategic partners like e-commerce platforms and e-tailing ecosystems with a large tech-savvy customer base

Increasing industry digitalisation with Internet of Things, cloud-based solutions, and warehouse automation giving tech-enabled logistics operators a competitive advantage.

Widening supply-demand gap in last-mile delivery, presenting expanded growth opportunities for road transportation and affiliated support services

Customers' growing preference for better connectivity, enhanced transparency, and a more holistic digital experience.

Evolving customer journey with higher demand for multi-channel services and end-to-end integrated logistics solutions

Continuous supply chain disruptions and fuel price surges, giving an edge to flexible business models built on “*elastic logistics*” and quick response to crisis events

Summary and outlook

Summary

- ▶ Significant milestones achieved during 2022, with integration of TAF E-Logistics in Singapore, expanding US presence into Chicago, and strategic investment in Philippines-based SEAIR
- ▶ Access to AOC allows Wiseway to better utilise its recently leased aircraft and future air assets added to its fleet
- ▶ Continued diversification and focus on high-growth segments of perishables, imports, and road transportation
- ▶ Prudent working capital practices and strong balance sheet, allowing the Group to pursue strategic growth initiatives

Outlook

- ▶ Enhanced focus on cost-optimisation and realising integration efficiencies, to revert to sustainable long-term profitability
- ▶ Full commitment to realise the opportunities from expansion of our global network, through recent branch additions and cross-border acquisitions
- ▶ Maintain our lean and resilient business model, providing flexibility to weather global supply chain disruptions and uncertainties
- ▶ Strong commitment to providing ongoing support to customers and ensuring the safety and wellbeing of employees.
